“Going Solar” Workshop

Special Notre Dame Presentation

9/15 at 12 pm

306 LaFortune Student Center
Gold Room

Let’s Work Together to Make It Easier, Faster, and More Affordable to Go Solar

Why Go Solar Together in 2017*?

- 1. Get a Discount:*** Leverage Our Community’s Buying Power to Reduce Electric Bills for Decades.
- 2. Get a Fair Quote:*** Solar Installer, Equipment, and Pricing is Pre-Selected Competitively
- 3. Make It Simple:*** Attend the “Going Solar” Workshop to Learn More!

**Systems installed/interconnected before Dec 31, 2017 may have the most financial value due to changes in state policy which impact net metering.*

Solarize South Bend is a community-powered initiative to make solar more affordable. Guidance is provided by the South Bend Office of Sustainability and the Michiana Area Council of Governments. The Solarize discount is valid for contracts signed before Dec 31st, 2017. Contracts signed before Sept 30th have the best chance of qualifying for 30 years of ‘net metering’ under existing Indiana policies.

Special Notre Dame Presentation for Faculty and Staff. Students welcome.
