# CASA PUEBLO'S ENERGY INSURRECTION IN PUERTO RICO

In the aftermath of Hurricane Maria, hear the story of one town's fight for energy independence and their plans to achieve 50% energy generation at the point of consumption with solar panels and independent microgrids by 2027.

## Arturo Massol-Deyá

Executive Director of Casa Pueblo,  
Professor of Microbiology and Ecology at the  
University of Puerto Rico at Mayaguez
