MODULAR REACTORS

The Next Generation of Nuclear Power Plants

As the climate crisis looms, many are taking a second look at nuclear power as a necessary solution. The U.S. Department of Energy, the Utah Associated Municipal Power Systems, and NuScale Power are working to create a small modular nuclear plant at the Idaho National Laboratory.

Youssef Ballout

Director of the Reactor Systems
Design & Analysis Division,
Idaho National Laboratory

SEPTEMBER 11

7:00 pm

136 DeBartolo Hall
