

# MODULAR REACTORS

*The Next Generation of Nuclear Power Plants*

As the climate crisis looms, many are taking a second look at nuclear power as a necessary solution. The U.S. Department of Energy, the Utah Associated Municipal Power Systems, and NuScale Power are working to create a small modular nuclear plant at the Idaho National Laboratory.

## Youssef Ballout

Director of the Reactor Systems Design & Analysis Division, Idaho National Laboratory

# SEPTEMBER 11

## 7:00 pm

## 136 DeBartolo Hall
