

# Lucy **CONVERGENCE** Series

Nuno Moniz    Margaret Traeger

## **Critical Challenges in AI Today**

**Tuesday, March 21, 2023**

**3:30-4:30 pm**

**B01 McCourtney Hall**

Refreshments will be served

How do the energy-guzzling processes of AI development call on both academia and industry to ponder our impact on climate change and sustainability? As more complex AI tools enter our daily lives, how do we understand the behavior of machines and the issues around human-machine interaction? **In this seminar, we will discuss potential sustainable solutions and more.**
