

Co-hosts: University of Notre Dame, Bradley University, Illinois Institute of Technology, Northwestern University, Purdue University, University of Illinois Chicago

AEESP DISTINGUISHED LECTURER

The Green Roof as a Complex System

Friday, March 31, 2023, 4:00 pm
Morris Inn, Ballroom A, University of Notre Dame
Poster session preceding talk, reception following

Prof. Cliff Davidson

Civil and Environmental Engineering, Syracuse University

Dr. Davidson is the Colleen Wilmot Professor of Engineering at Syracuse University. He is a Fellow of the American Association for Aerosol Research (AAAR), the Association of Environmental Engineering and Science Professors (AEESP), the American Society of Civil Engineers (ASCE), and the Syracuse Center of Excellence in Environmental and Energy Systems. His long-term research interest is transport and fate of environmental pollutants, especially atmospheric acids and heavy metals.
